

Tooth Cleaner Girl

Tooth Cleaner Boy

PARAVITAL tooth cleaner for babies and toddlers

Your little siren howls continuously. Help it - dental alarm!
 Even if the first pearlescent whites are neither spies nor through the gums, your crying baby cries a lot and chews on his fingers all the time. The toothbrush finger helps your baby. Massage your little darling gently with the microfiber tooth cleaner for oral care of the sensitive gums. You can precisely dose the pressure. The first teeth can be cleaned painlessly and antibacterial.
 Antibacterial thanks to the silver surface of the finger stall.
 Optimal dental care right from the start.
 The tooth cleaner is a perfect massage aid and tooth cleaner.
 Tooth enamel on the first soft teeth is protected.
 There are no marks on the teeth.
 Babies get used to brushing their teeth more easily

Application

Wash well before first use and after each use.
 Moisten the tooth cleaner with water before use to start the effectiveness of the silver ions.
 Pull the tooth cleaner over the index finger, the safety loop over the middle finger.
 Clean the baby's teeth and massage the gums
 Bacteria and plaque remain on the fiber and are eliminated there by the silver ions.
 Wash out after use.
 Unlike traditional toothbrushes and teething rings, you can precisely regulate pressure and avoid gum injuries.
 You have to playfully train your baby's first dental care with the tooth cleaner.
 The tooth cleaner can also be used for tongue cleaning.
 Important safety instructions:
 Never leave your child unattended with the dental cleaner.
 Check the tooth cleaner before each use.
